Our literacy was also farming related. We studied the video of Farmer Jack and built up to a debate looking at the pros and cons of traditional versus modern ways of farming. The arguments were powerful and the children are getting more confident at expressing themselves in discussions.

In maths we have been problem solving and using reasoning skills to help us find solutions. We have been working with percentages and finding the relationship between fractions, decimals and percentages.

Not surprisingly, our Treginnis residential trip has been the talk of the class before, during and after the visit. The children had an amazing time and were given some incredible opportunities and experiences. We were so proud of the way they dealt with being away from home for the first time and how they threw themselves into every task. They displayed courage and curiosity stepping into unfamiliar situations as well as teamwork and co-operation getting tricky tasks done by working together.

As a staff team we were proud of their achievements and hope that you have enjoyed the stories and memories they have brought home.

We will be putting together some reflections which they will be able to share with you at parent reviews in the new half term.

We Learn, We Play, We Care, We Pray.
