DYFRIG

In maths, we have got really stuck into multiplication. We have been investigating different ways of multiplying large numbers, with Mr Ward and Mrs Lyndon-Jones challenging us to find more than 2 ways of solving different problems. We have had a focus on long multiplication. We are applying the multiplication skills we have learned to different problems. We have been multiplying 2 3 and even 4 digit numbers! We are getting really good at explaining our methods rather than just giving an answer.

What a busy month we have had in Dyfrig! After finishing our instruction writing based around our book *Leaf*, we read *The Christmas Eve Tree* all about a wonky Christmas tree, which brought hope and joy to a homeless boy and all those who he came into contact with. This culminated in 2 comparative diary entries from the perspective of the wonky tree - one from the beginning of his journey where he felt hopeless and unloved and one from the end where he was filled with hope for his future.

Our RVE inquiry of *Incarnation* has focussed on comparing the prophecies of Jesus in the Old Testament and comparing them to the reality of Jesus being born in a stable. We became investigative journalists, examining the evidence and then created a radio broadcast based on all the evidence we gathered.

We Learn, We Play, We Care, We Pray.
